PROFESSIONAL SUMMARY

Detail-oriented Sports Data & Video Analyst and Data Processing Specialist with 9+ years of combined professional experience across sports analytics, data entry, quality assurance, OCR, document processing, and data verification. Experienced in reviewing live and recorded sports footage, capturing structured play-by-play data, validating high-volume records, and identifying errors before final delivery. Comfortable working independently in remote environments, learning new platforms and workflows, and meeting strict deadlines while maintaining accuracy.

CORE COMPETENCIES

Sports Data & Video Analysis • Play-by-Play & Event Tagging • Player / Jersey Identification • Data Entry & Verification • Quality Assurance & Error Checking • OCR & Document Processing • Spreadsheet Management • Roster & Statistical Tracking • Timestamp-Based Video Indexing • High-Volume Data Processing

TECHNICAL TOOLS

Sports & Video: Playback Review, Hudl, InStat, Krossover | Data & Productivity: Microsoft Excel, Google Sheets, Microsoft Office, Google Workspace | Collaboration: Microsoft Teams, Slack | Workflows: OCR processing, video tagging, timestamp indexing, data QA, incident documentation

PROFESSIONAL EXPERIENCE

Data Entry / Sports Analyst (Remote) — TeleworkPH | Nov 2022 - Present

- Analyze and tag live and recorded sports footage across basketball, American football, and volleyball projects using Hudl, InStat, and project-specific workflows.
- Process 500+ game events per session while capturing play-by-play actions including scoring, assists, rebounds, fouls, substitutions, penalties, turnovers, and other game-specific events.
- Perform quality-assurance reviews by cross-checking tagged events, timestamps, player information, and source footage before final submission.
- Worked across professional and amateur competitions including NBA, EuroLeague, Chinese and Japanese basketball leagues, high school and elementary basketball, volleyball, and American football.
- Collaborate remotely with trainers, analysts, and project leads while consistently meeting production targets and submission deadlines.

Freelance Sports Data & Video Analyst — Upwork | 2026 - Present

- Track and verify basketball game statistics and maintain organized league records across completed games and season workflows.
- Review sports footage and AI-generated tags for accuracy, including American football play classification, play-grid verification, and OFF FORM review.
- Perform video/event tagging and quality assurance for dodgeball and other sports-analysis workflows using project-specific platforms.
- Identify players, jersey numbers, game events, and data inconsistencies, then correct records before delivery.
- Earned 5.0 client feedback for professionalism, accuracy, communication, attention to detail, and commitment to quality.

Detection Specialist — ECAM | May 2024 - Sept 2024

- Monitored multiple live CCTV and surveillance feeds to identify security incidents, unusual activity, and operational concerns.
- Prepared accurate incident reports and escalated critical events according to company procedures.

Auditor / Key Entry Operator (Office / On-site) — IDCSI | Apr 2019 - Oct 2022

- Encoded approximately 200 handwritten waybill/logistics documents daily, including customer, sender/receiver, address, shipment, item-description, pricing, currency, date, and contact information.
- Performed verification and quality checks to ensure entries were accurate, complete, and consistent with source documents.
- Interpreted unclear handwriting and resolved data inconsistencies through careful review in a high-volume production environment.

Sports Indexer / Data Entry Specialist (Office / On-site) — M&M Data Processing Corp. | Nov 2016 - Mar 2019

- Reviewed and indexed basketball and volleyball game footage using timestamp-based tagging systems.
- Tagged shots, fouls, rebounds, assists, turnovers, substitutions, and other statistical events.
- Maintained accurate play-by-play sequencing and consistent event data across high-volume sports projects.
- Supported a legal-document OCR verification project by comparing extracted text with source documents, correcting recognition errors, and checking final data for accuracy.

EDUCATION

BS Information Technology - 1st Year College Completed | Our Lady of Fatima University

High School Diploma | Zion Hills Christian Academy

Open to full-time remote opportunities.
